

Outdoor Supervision Policy

Our teacher/student ratios will be maintained at all times.

Our first aid kit and cell phones/medication such as epi pens will be brought with us.

We will keep the children in sight at all times.

We will put on the muddy buddies/t-shirts at all times.

We will assist any children that wishes to climb or explore the middle garden but will assist only in the way of being next to the child. If the child can't climb on their own we will not help them climb.

We will not allow climbing above the child's waist height.

The teachers will not stand together but will move around the yard to properly supervise all areas.

In order to assist the child we will call to the other teacher and explain we are going to the middle garden.

We will not allow children to explore the middle garden if there is only one teacher in the yard.
